

# Ready, Set, Build!

*Building for kids, families, and the future in 2017*

*The expanded, renovated, unified museum building—opening December 2017*

## Reimagined and rebuilt favorite exhibits and brand new experiences!

### Light and Color

*Brilliantly reimagined for those with visual impairments, and more vividly engaging for all*

### The Water Room

*An enchanting water workshop, where kids will interact with all of water's wondrous behaviors*

### Sound

*Making sound visible and even more hands-on for all*

### AirMaze

*An interactive fifteen-foot high maze of tubes and blowers demonstrating the power of air*

### DaVinci's Workshop

*An inclusive space for exploring simple machines and getting inventive with tons of making and tinkering tools and materials*

### Yes, It's Math!

*Even if you don't realize it, math is around us every day—and you're already good at it!*

### Brain Building

*Based on the latest brain development research, an exhibit space especially for infant and toddler visitors and their parents or caregivers*

## Bessie's House!

Within an indoor, reproduction façade of our original Children's Discovery Museum building, you'll find reimagined favorite exhibits in our traditional style, scaled for preschoolers—and fully accessible:

- The Train Room
- Bessie's Diner
- Backyard at Night
- The Ship Room

*The original Children's Discovery Museum building will close to the public beginning in December 2017.*
